ITALIAN TRADE AGENCY

ITA - Italian Trade Agency is the government agency officially tasked with supporting the international business development of Italian companies and promoting the attraction of foreign investment to Italy.

With a motivated and modern organization of offices in 70 countries around the world, ITA provides information, assistance, consulting and training to Italian small and medium-sized businesses, in addition to using the most modern multi-channel promotion and communication tools to assert the excellence of 'Made in Italy' globally.

The ITA is directly involved in promoting and fostering exports and cooperation in all areas - industry (consumer and capital goods), agricultural technology and agri-food, services and training. It works closely with the Italian Regions, the Italian Chambers of Commerce, business organizations and other public and private entities. The headquarters in Rome and its network of offices around the world act as "Trade Promotion Sections" of the Italian Embassies or Consulates.

UCIMA

UCIMA (Italian Packaging Machinery Manufacturers' Association) is the national trade association which represents and supports the Italian packing and packaging machinery manufacturers. It has more than 160 member companies from all over Italy, including the industry's primary leaders and works in close cooperation with AMAPLAST (Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers' Association), strengthening the offer of Italian technologies for the international investors.

UCIMA Member companies cover the entire range of packaging machinery production, from food, confectionary, and tobacco industries to pharmaceuticals, chemicals, petrochemicals, cosmetics, and end-of-line technologies. These companies contribute to making Italy one of the world leaders in packaging machinery, with a global market share of 22.5%, with the United States, France and China being the top export markets.

ITALIAN PACKAGING TECHNOLOGY

When you buy Italian machinery you're entering into a partnership with the world's most highly skilled engineers and manufacturers. The result is a smarter approach which combines sophisticated technology, flexible solutions, and competitive pricing to meet your needs.

With sales of more than 8 billion euro, the Italian automatic packaging machinery sector is a dynamic industry with one of the highest export propensity (over 80%), consisting of 200-250 companies.

The industry's lead position is based on four essential factors:

- Advanced technologies and product quality
- Extremely high levels of customization and operating flexibility of machinery
- Rapid after-sales support in global markets
- High degree of competitiveness, based on a combination of large integrated groups and highly specialized small and medium-sized enterprises, which offer a full range of machinery for all types of products.

Most Italian packaging machinery is sold to the food sector, accounting for 60% of the industry's turnover, followed by pharmaceutical, cosmetics and personal care sectors, as well as other important sectors including tobacco, chemicals-petrochemicals and tissues. Visit the Italian pavilion - booth #7150 - showcasing 15 industry leaders of PACKAGING TECHNOLOGIES and explore how Italy can help you expand and move your business forward.
